

What is "PiDapter" for The PiTrol?

PiDapter is a **D** shaped GPIO Adapter for your **Raspberry Pi**!

PiDapter26 is for **Raspberry Pi's** with a **26 way** GPIO Connector (**Models A & B**)

PiDapter40 is for **Raspberry Pi's** with a **40 way** GPIO Connector (**Models A+,B+ & 2**)

Connect it by Ribbon Cable

to the GPIO Connector on your **Raspberry Pi** then plug in **two PiTrol** games controllers and write **two player** games for the **Raspberry Pi**

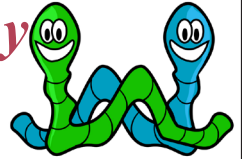

PiDapter is unlike other games controller adapters!

PiDapter is designed for **two player** games **written by you!**

Write the game... ***PiDAPTER Wormy***

...then bring other **Python** Games to Life with **PiDapter** for **The PiTrol!**

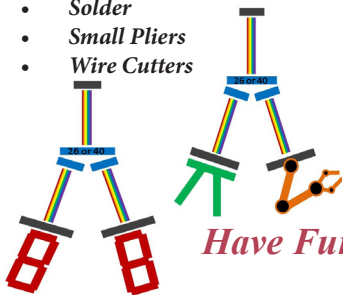

Kit Contents

- *PiDapter26* or *PiDapter40* PCB
- 3x Ribbon Cable Connectors
- Resistor(s)
- Transistor (26 only)
- Stick-on Feet
- 26 Way or 40 Way Ribbon Cable

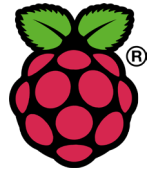

Tools Required

- Soldering Iron
- Solder
- Small Pliers
- Wire Cutters

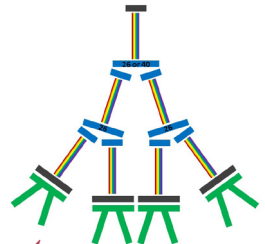

Required but not included

- **Raspberry Pi**®

Also Required

- **Your Own Imagination!**

Have Fun while you Learn with PiDapter...

...and this could be your ~~First~~ ^{Third} step to becoming one of the next generation of **Computer Games Designers!**
